EFFECTIVE DATE: June 24, 2019

PAGES: 1 of 3

BY: Division of Parking Services

I. PURPOSE

On-street public parking is a valuable, limited transportation resource managed to facilitate access to adjacent land uses and traffic generators. On-street parking is intended for short-term use and complements off-street lot and garage parking that is intended for long-term use. The City of Columbus actively manages on-street parking to support the City's economic and development vitality.

The purpose of these rules and regulations is to establish guidelines when on-street parking demand requires a change in hourly parking rates to decrease or increase occupancy. The goal is to provide a transparent process that requires the use of key performance indicators to evaluate the need to adjust parking rates to obtain the desired on-street occupancy.

II. AUTHORITY

- A. Pursuant to the authority granted under Section 2105.03 of the Columbus City Codes, 1959, as amended, the Director of Public Service hereby adopts, establishes, and publishes these rules and regulations to be effective at the earliest time allowed by law.

 - 2. If the average on-street occupancy is greater than or equal to sixty percent (60%) but less than eighty percent (80%), the hourly parking rate will not be adjusted.
